

docs_alert_dialog

Un nuevo proyecto de Flutter.

Empezando

Este proyecto es un punto de partida para una aplicación Flutter.

Algunos recursos para ayudarte a comenzar si este es tu primer proyecto de Flutter:

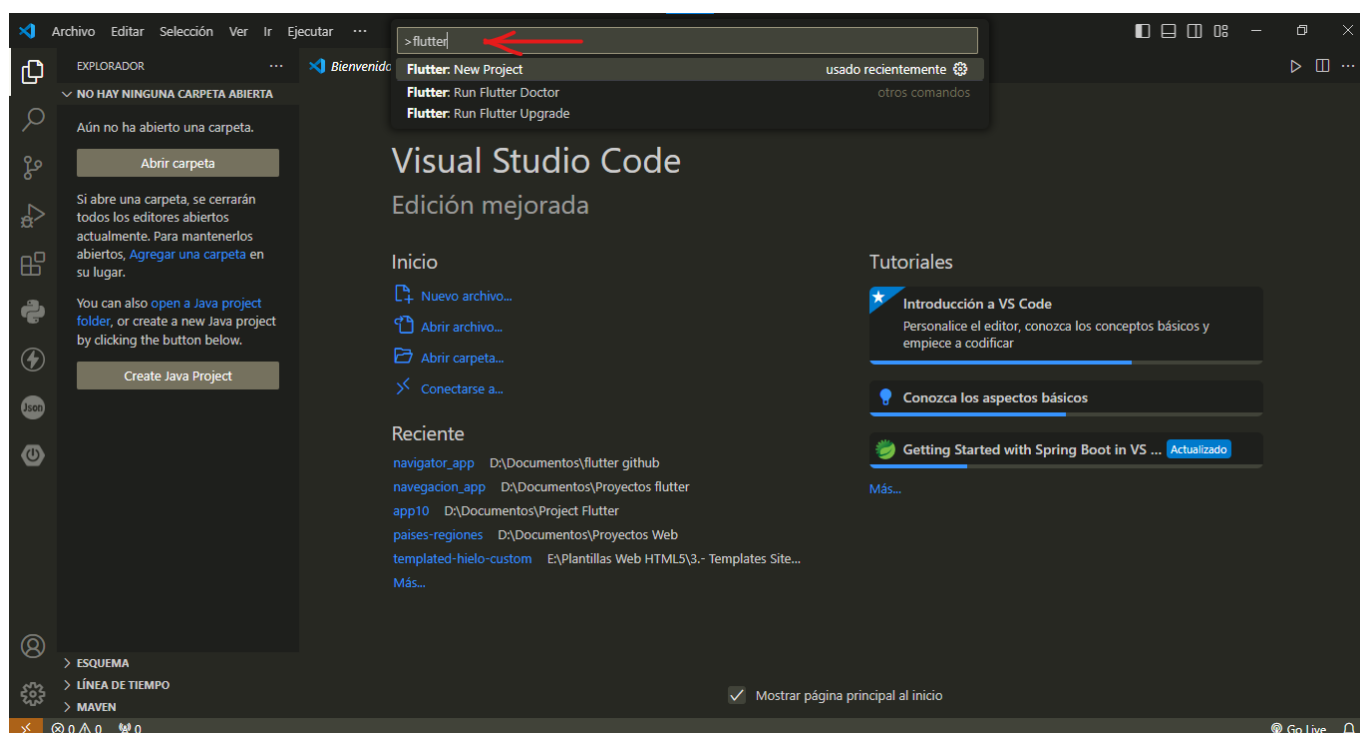

- [Lab: Write your first Flutter app](#)
- [Cookbook: Useful Flutter samples](#)

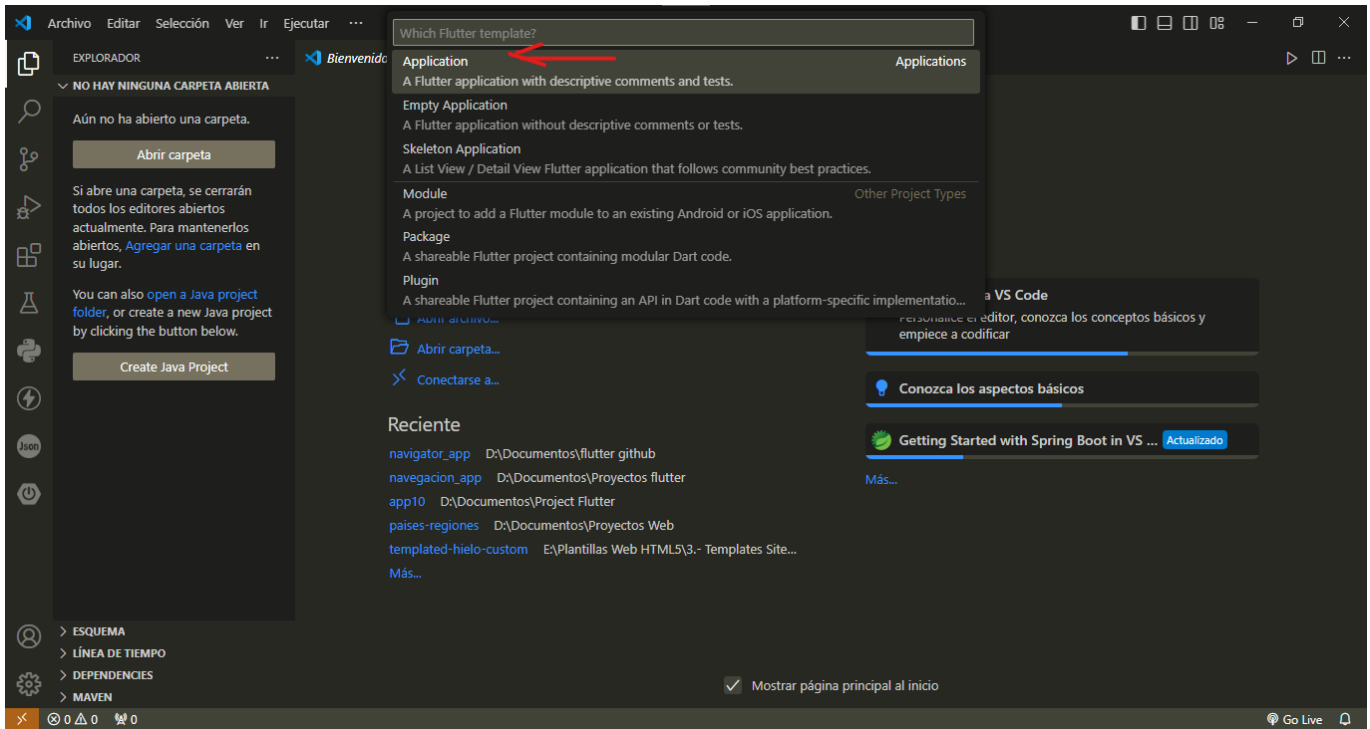

Para obtener ayuda para comenzar con el desarrollo de Flutter, consulte la [online documentation](#), que ofrece tutoriales, ejemplos, orientación sobre desarrollo móvil y una referencia API completa.

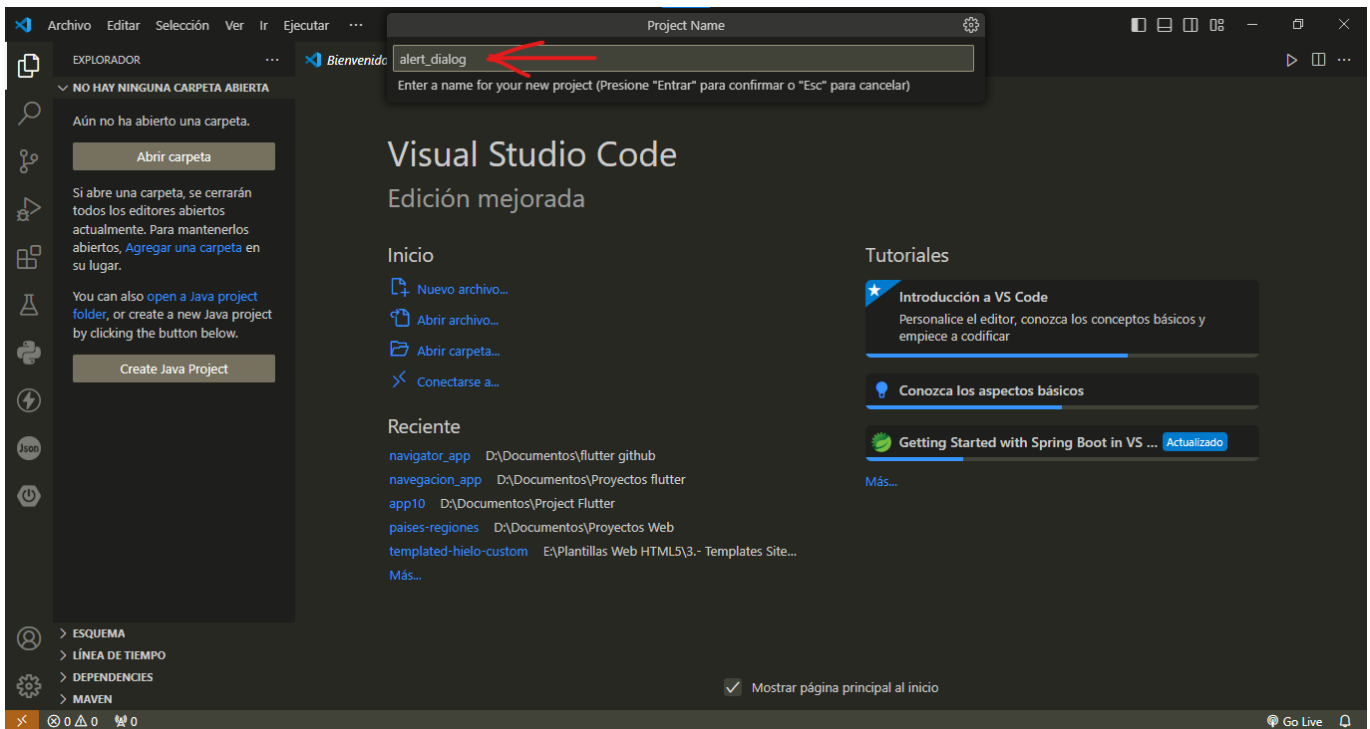

Vista previa de la app Diálogo alerta - Elaborar una aplicación de Diálogo alerta.

Código de las pantallas

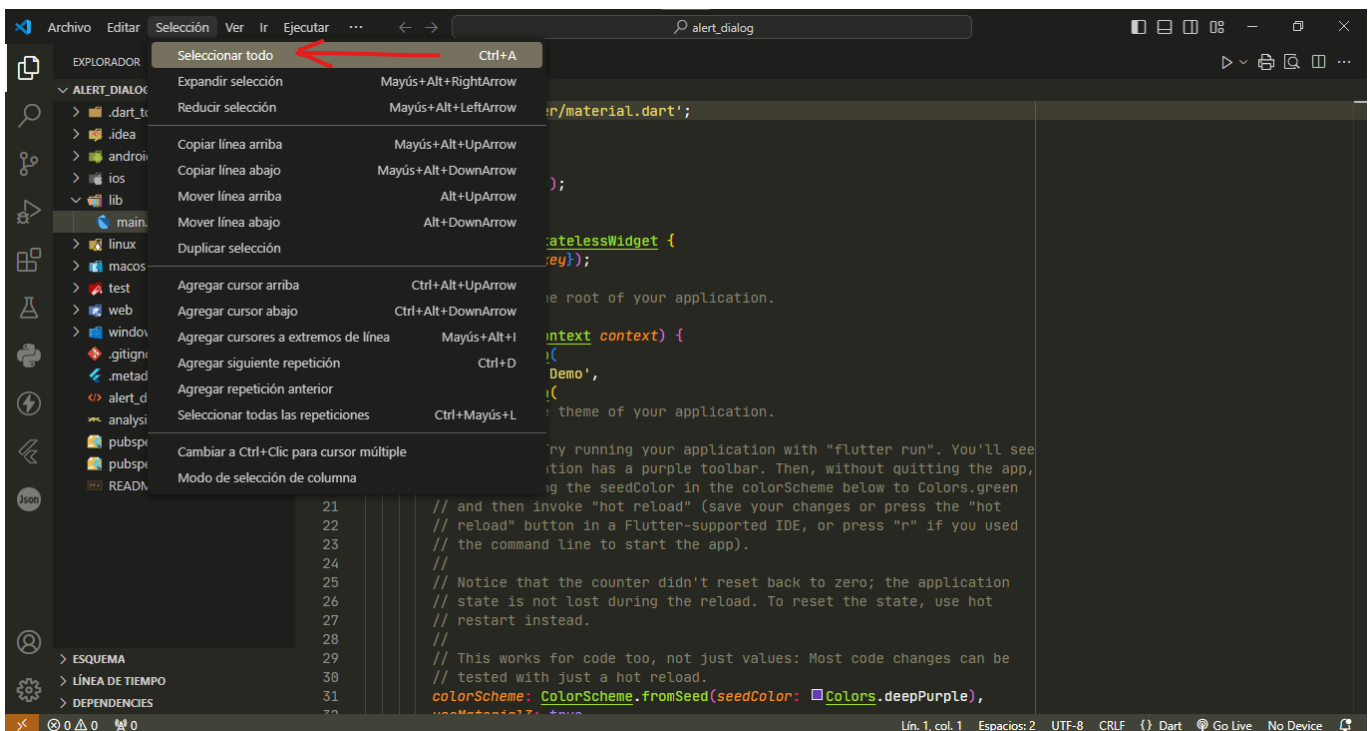

Presionar la combinacion de teclas Ctrl + Shift + p

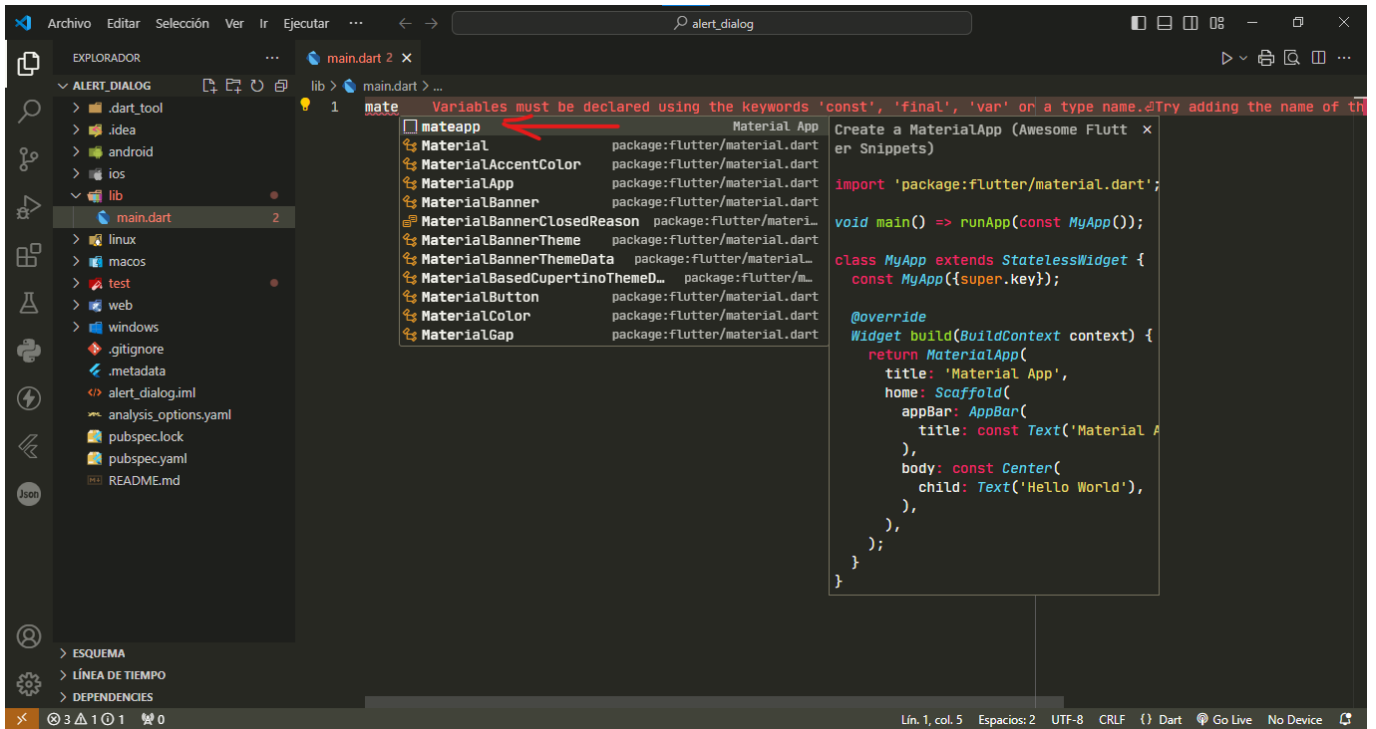

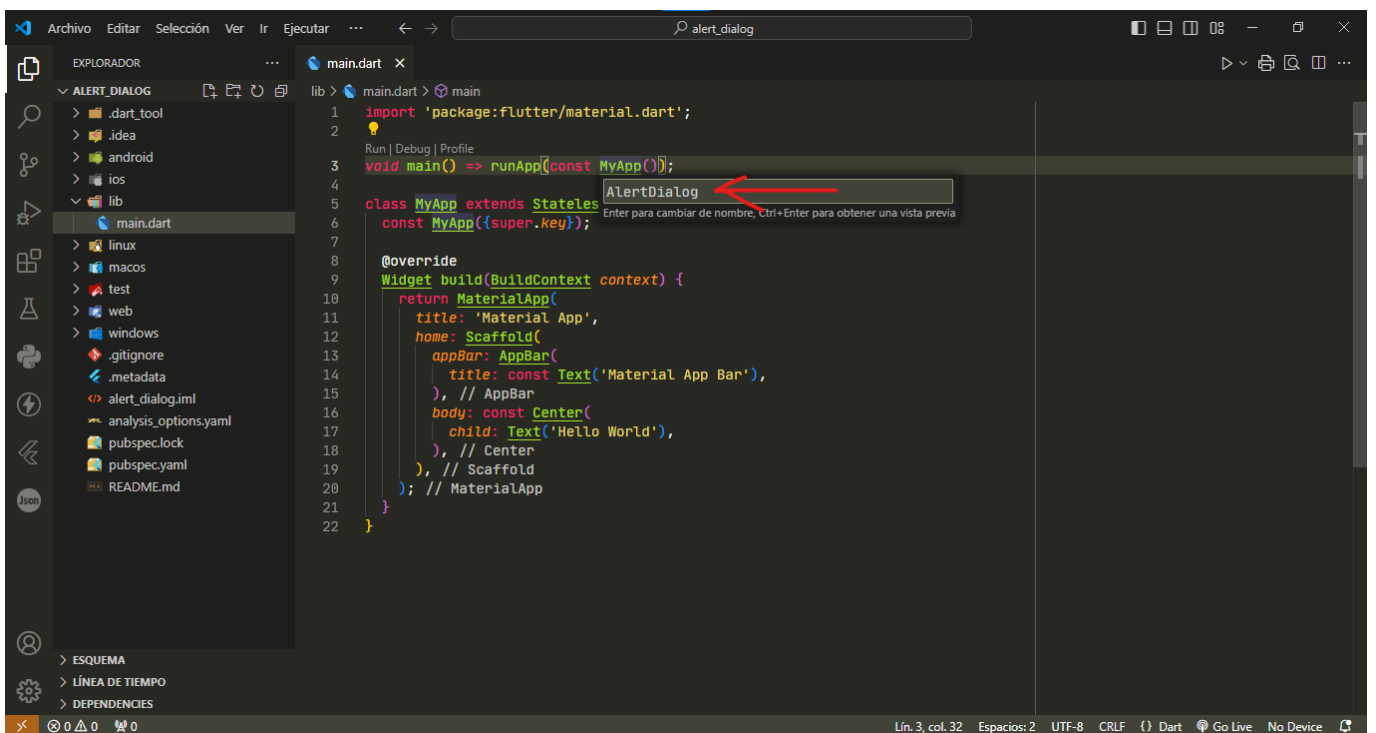

Debemos seleccionar todo el código de ejemplo y pulsar la tecla Supr:

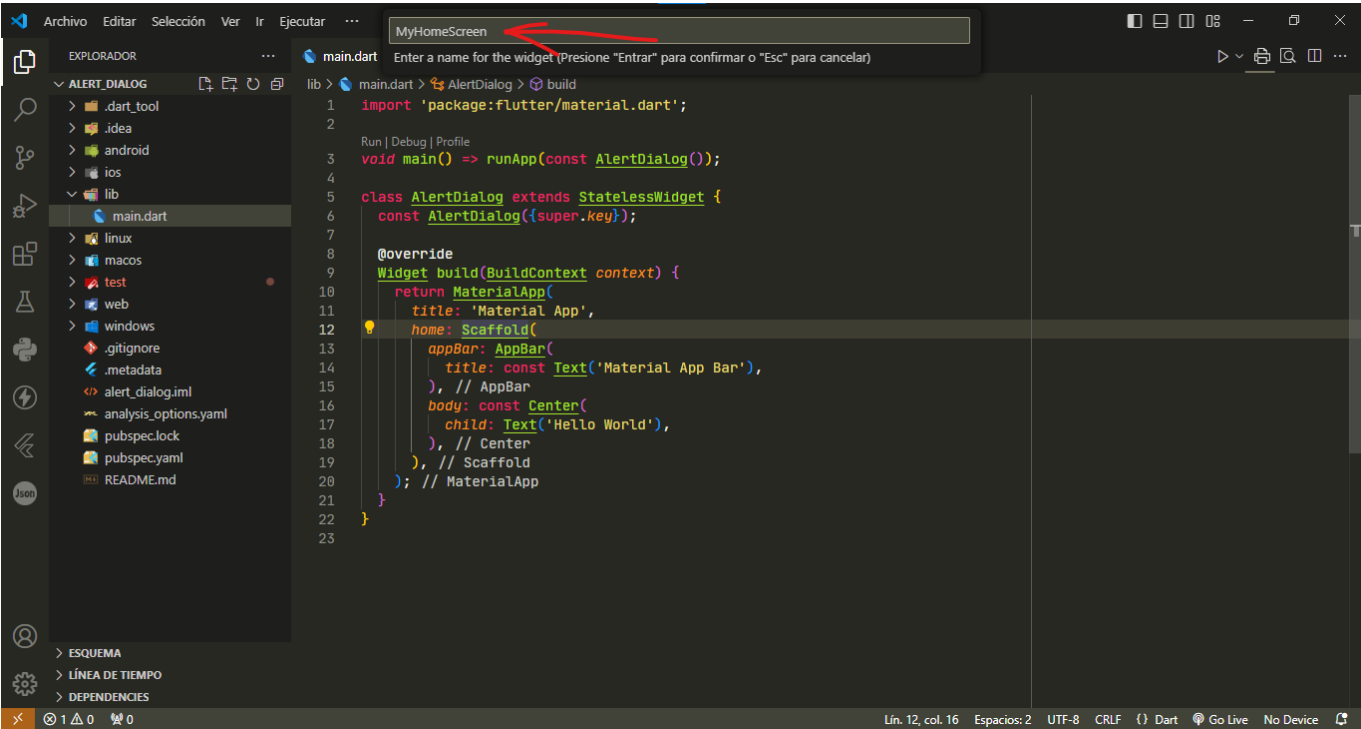

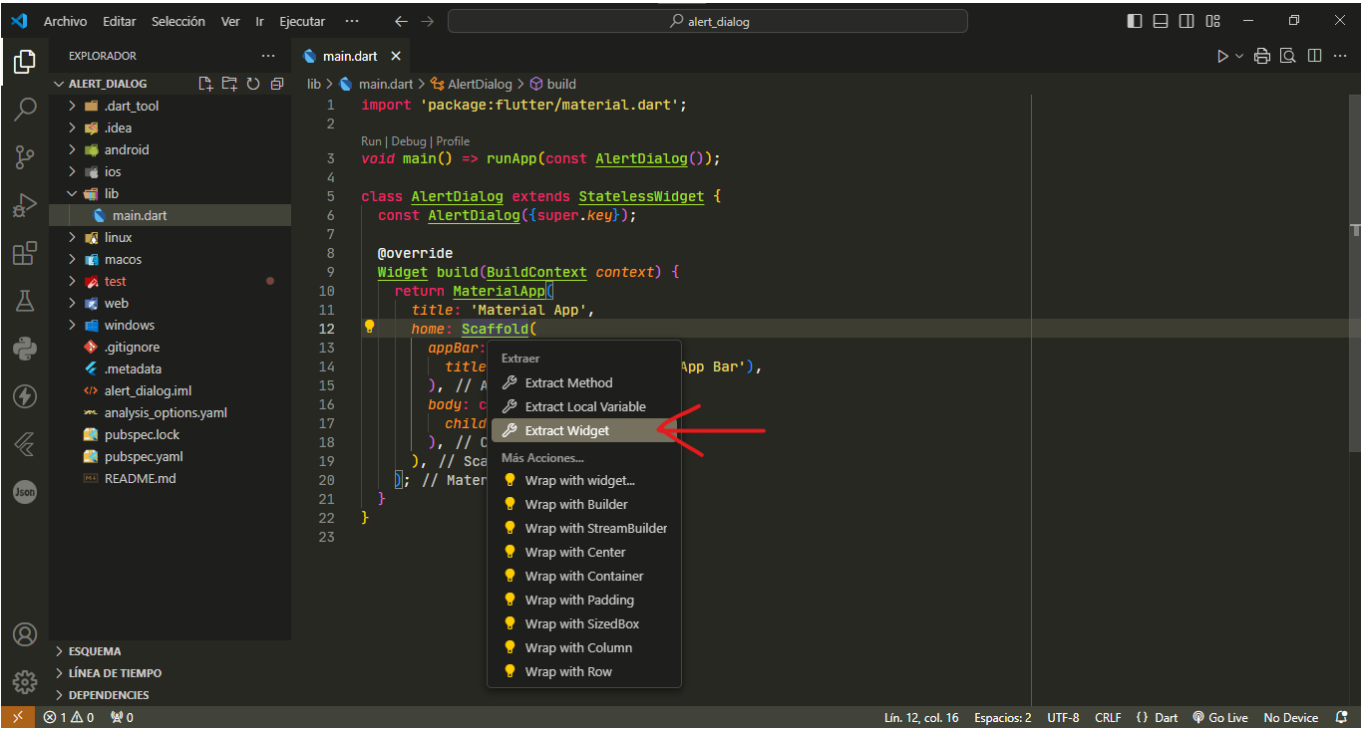

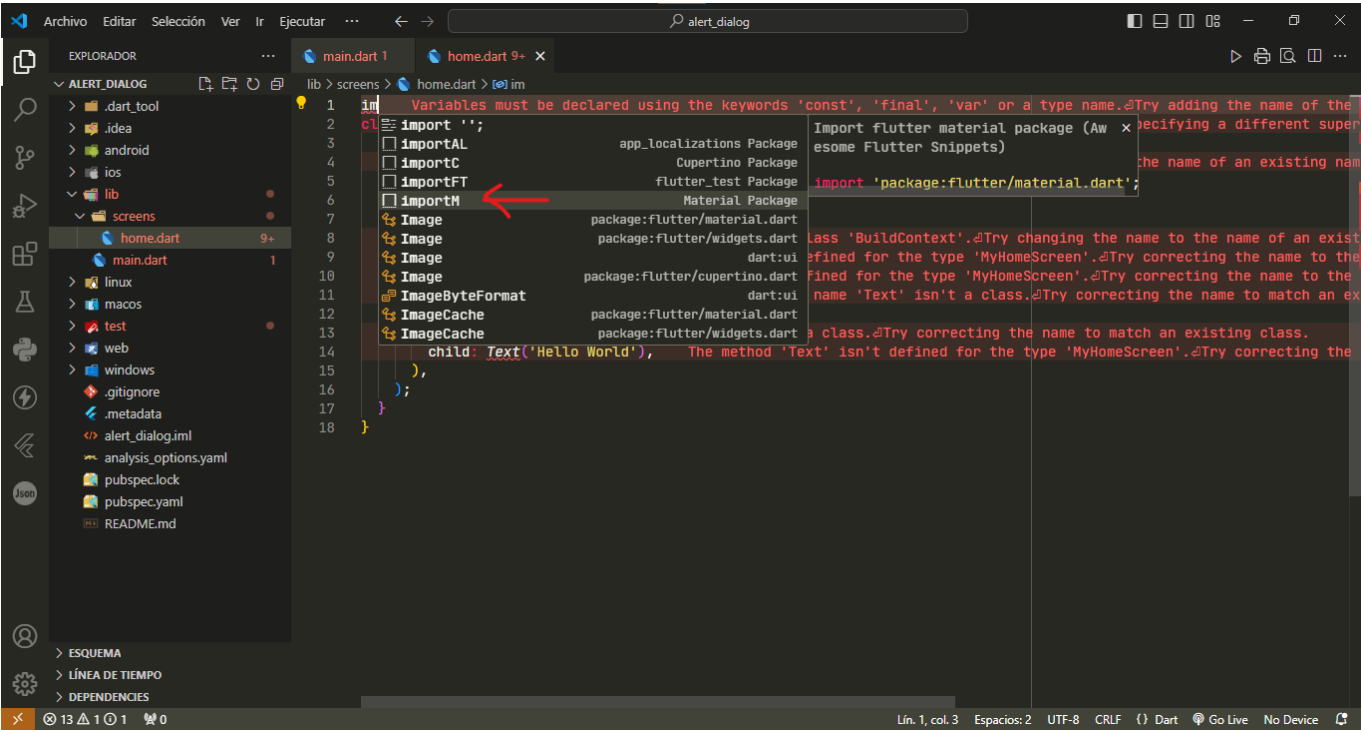

Luego, escribimos la palabra mate y pulsamos la tecla de Enter para autocompletar la plantilla de mateapp.

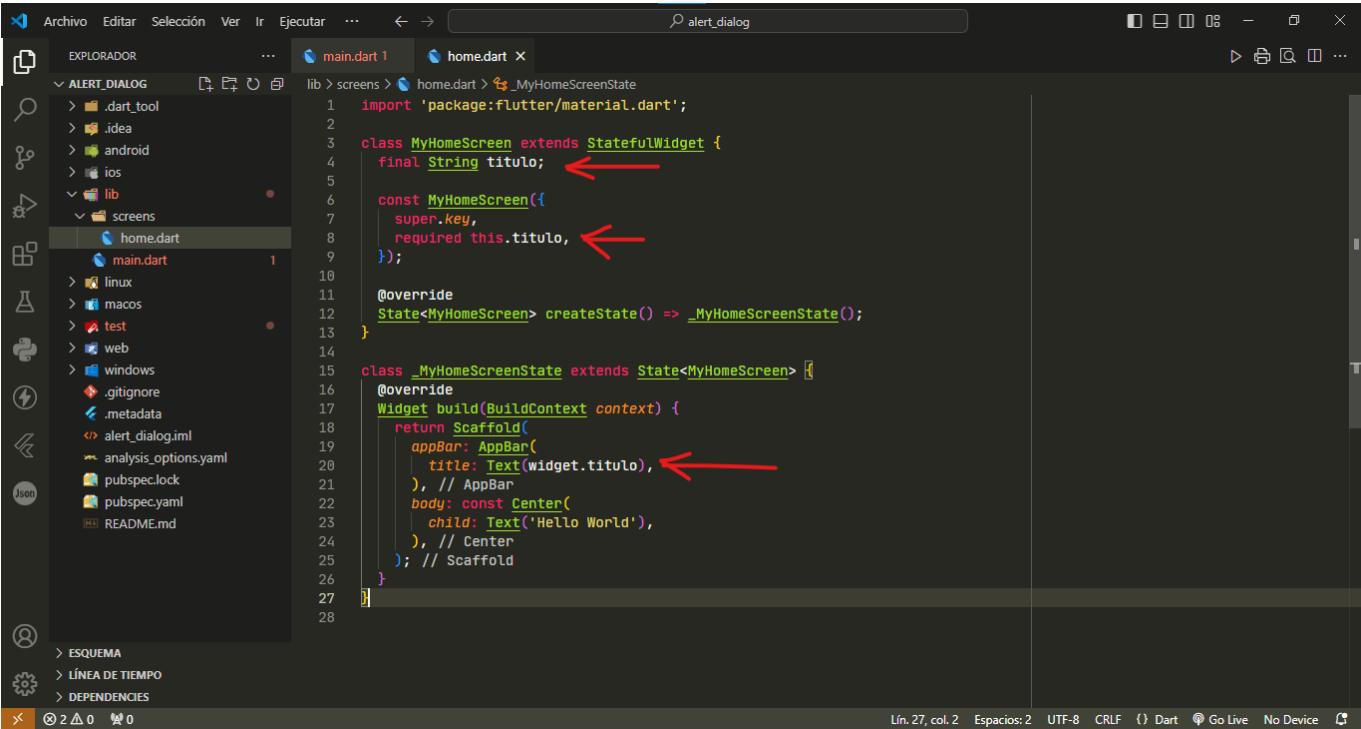

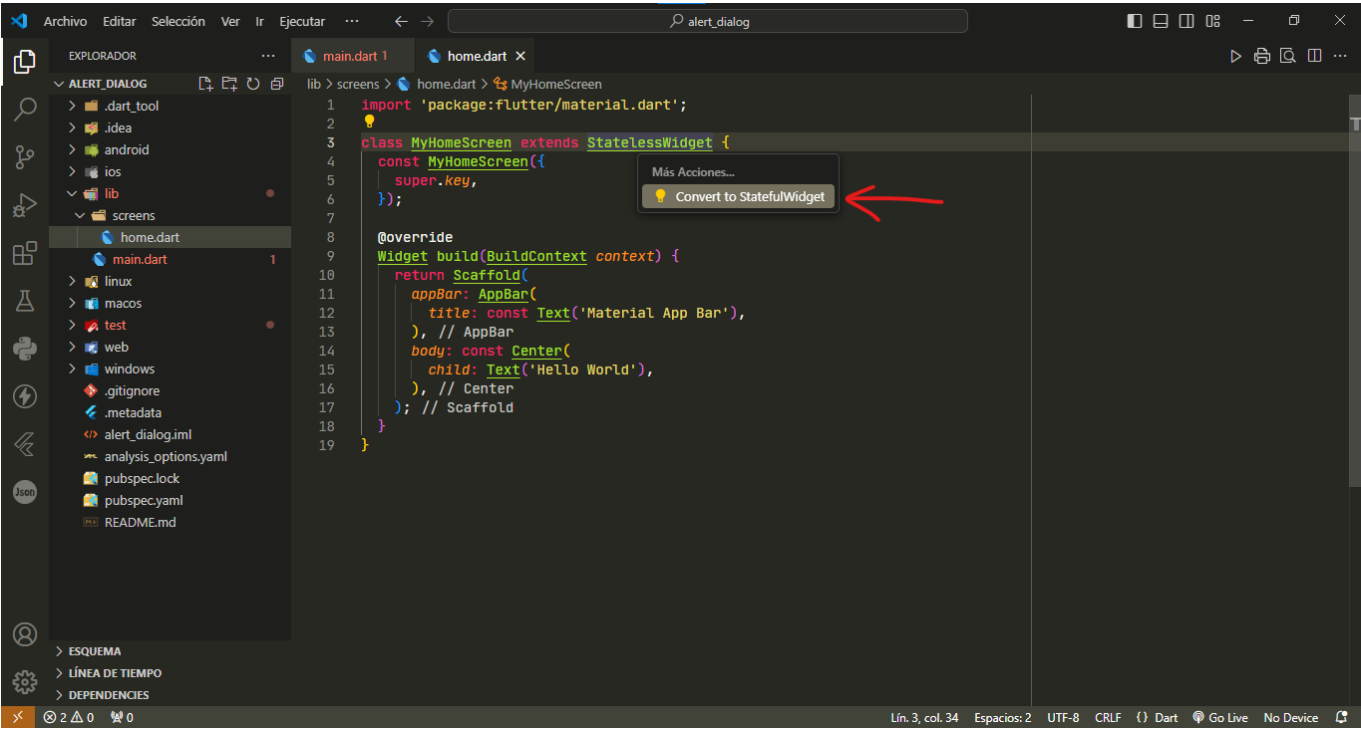

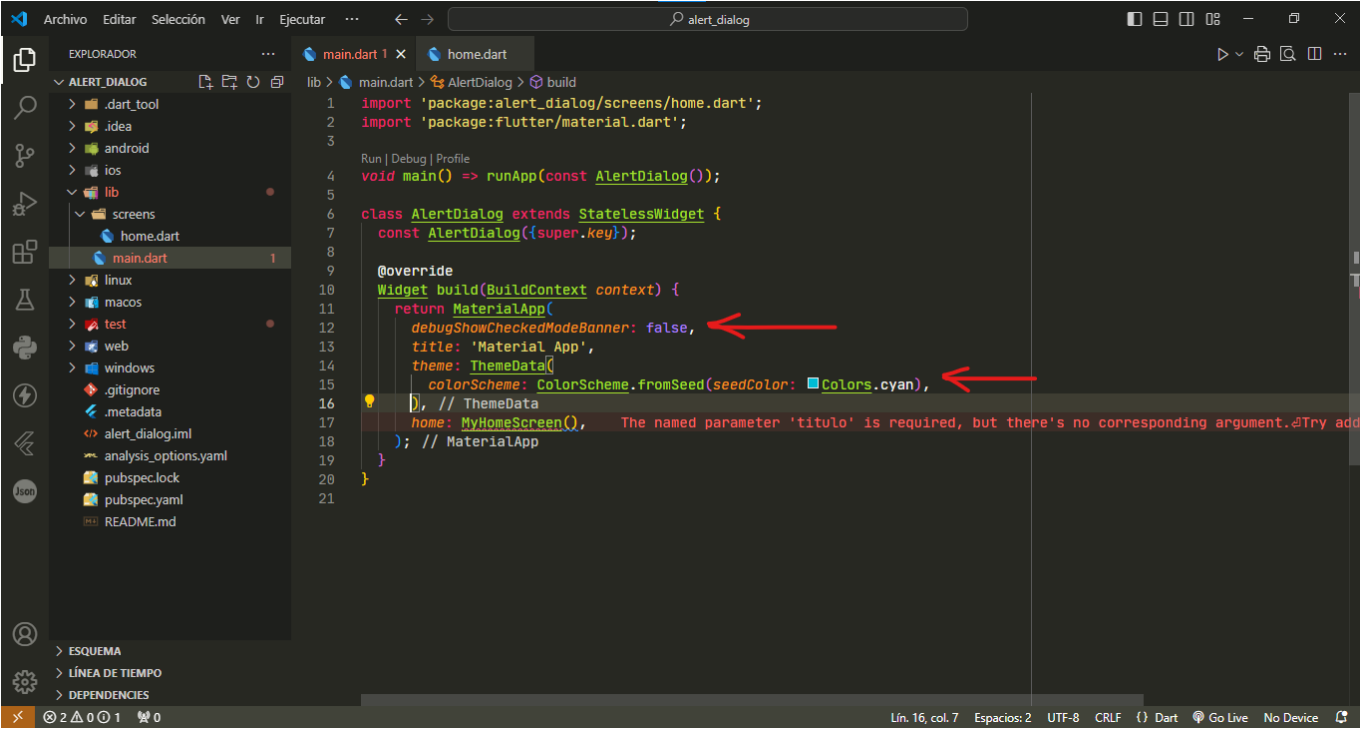

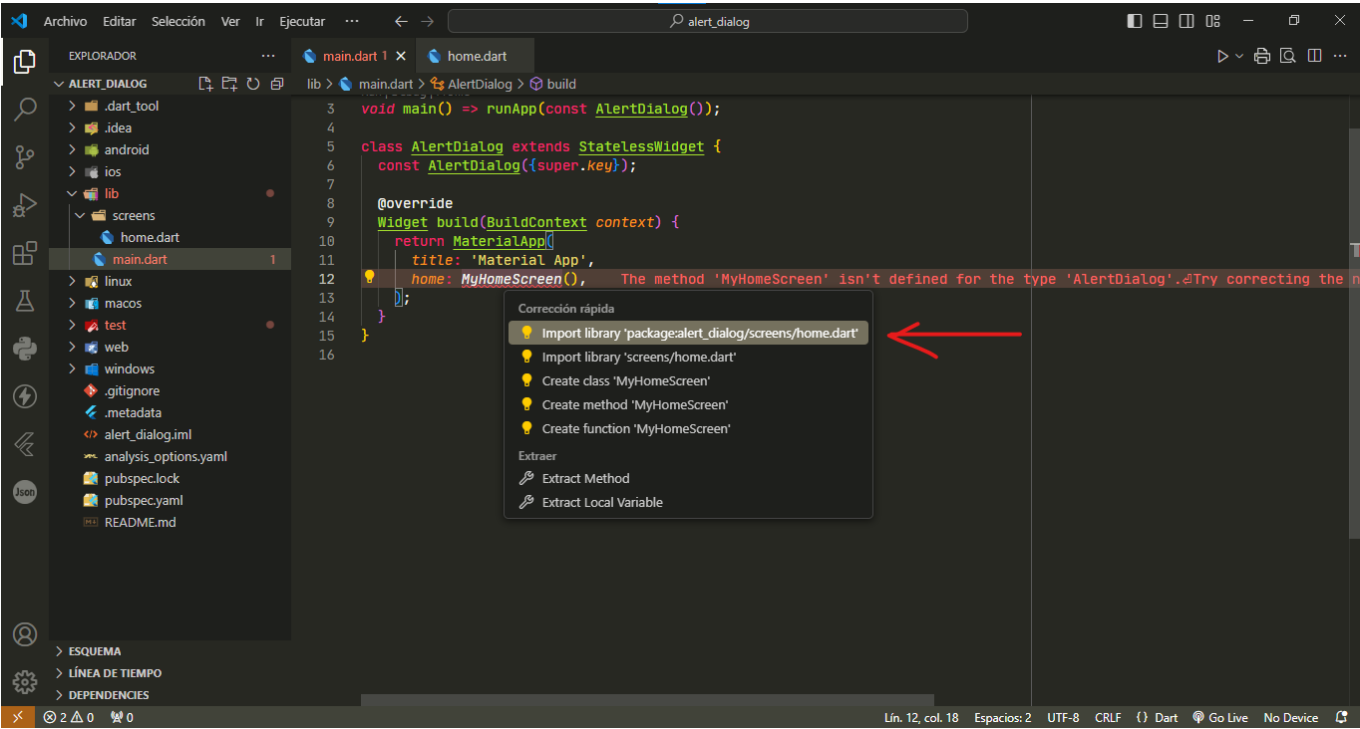

Después hacemos click el MyApp pulsamos la tecla F2 y cambiamos el nombre por AlertDialog.

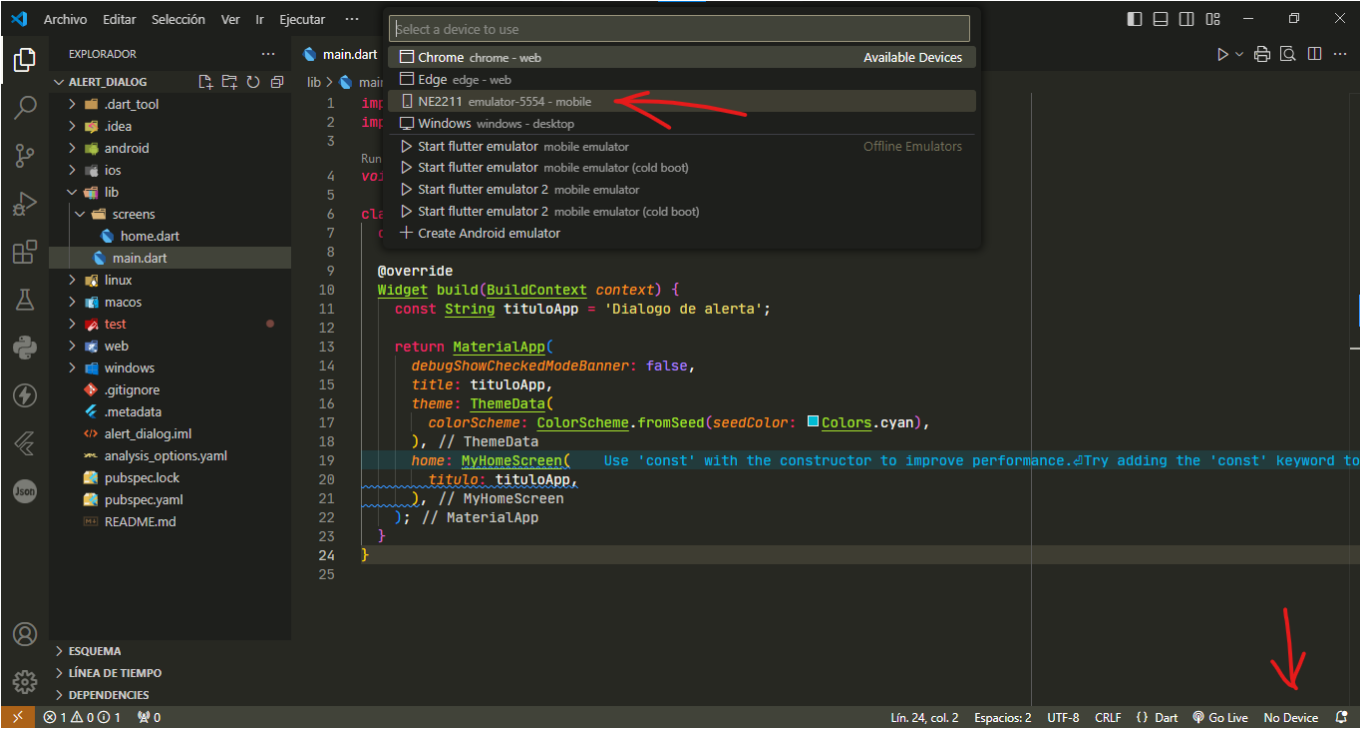

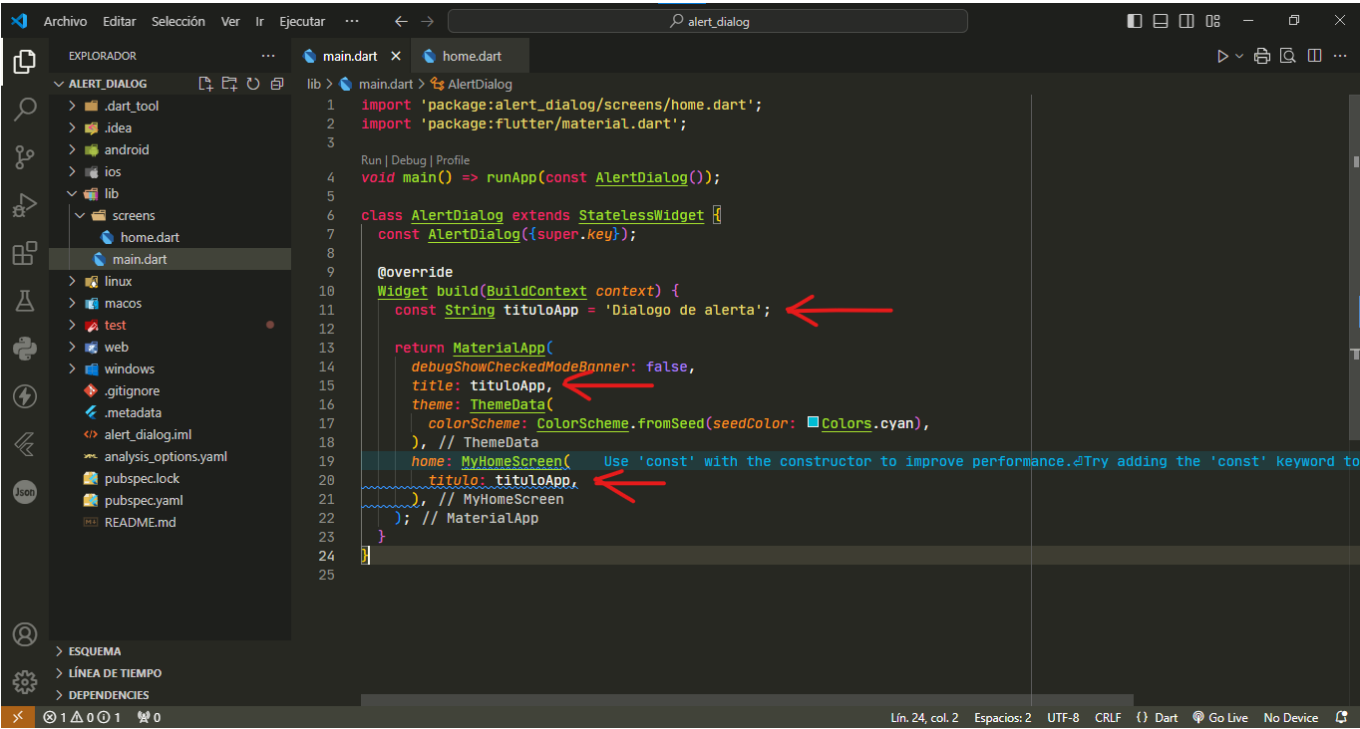

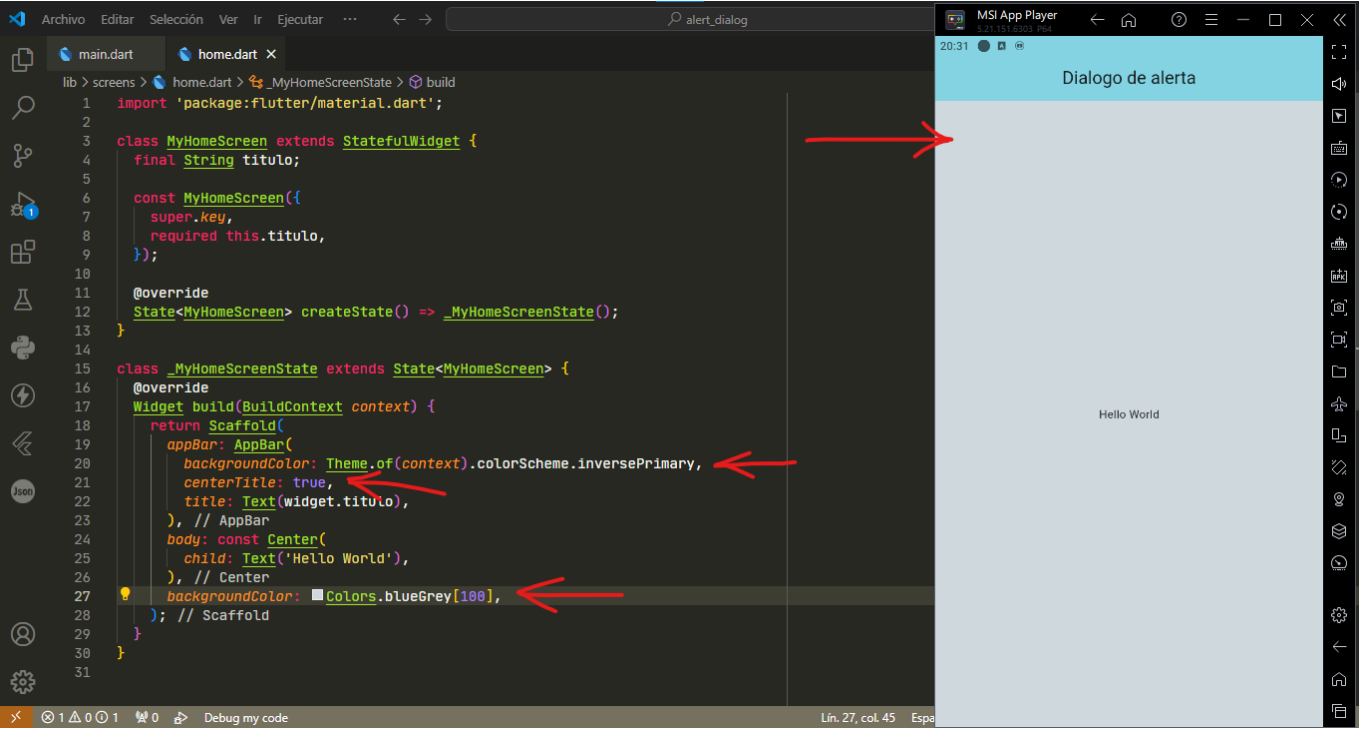

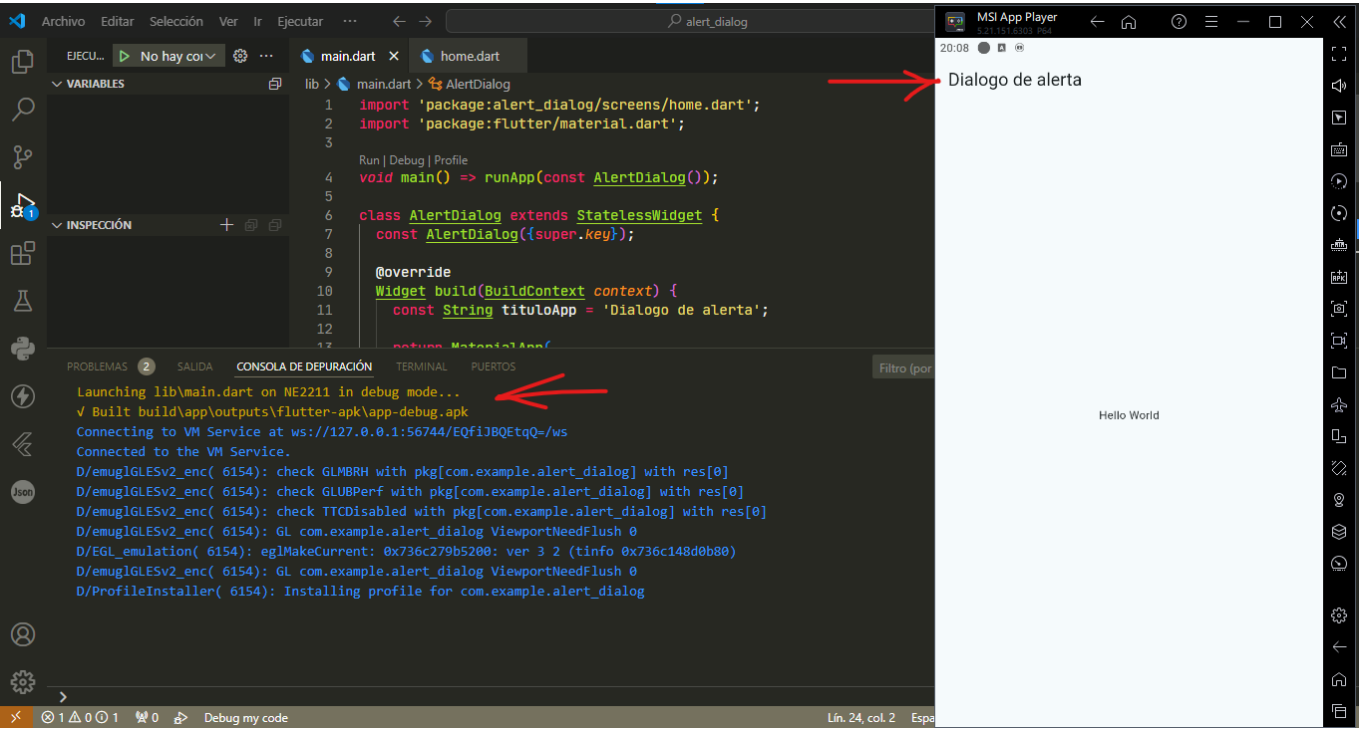

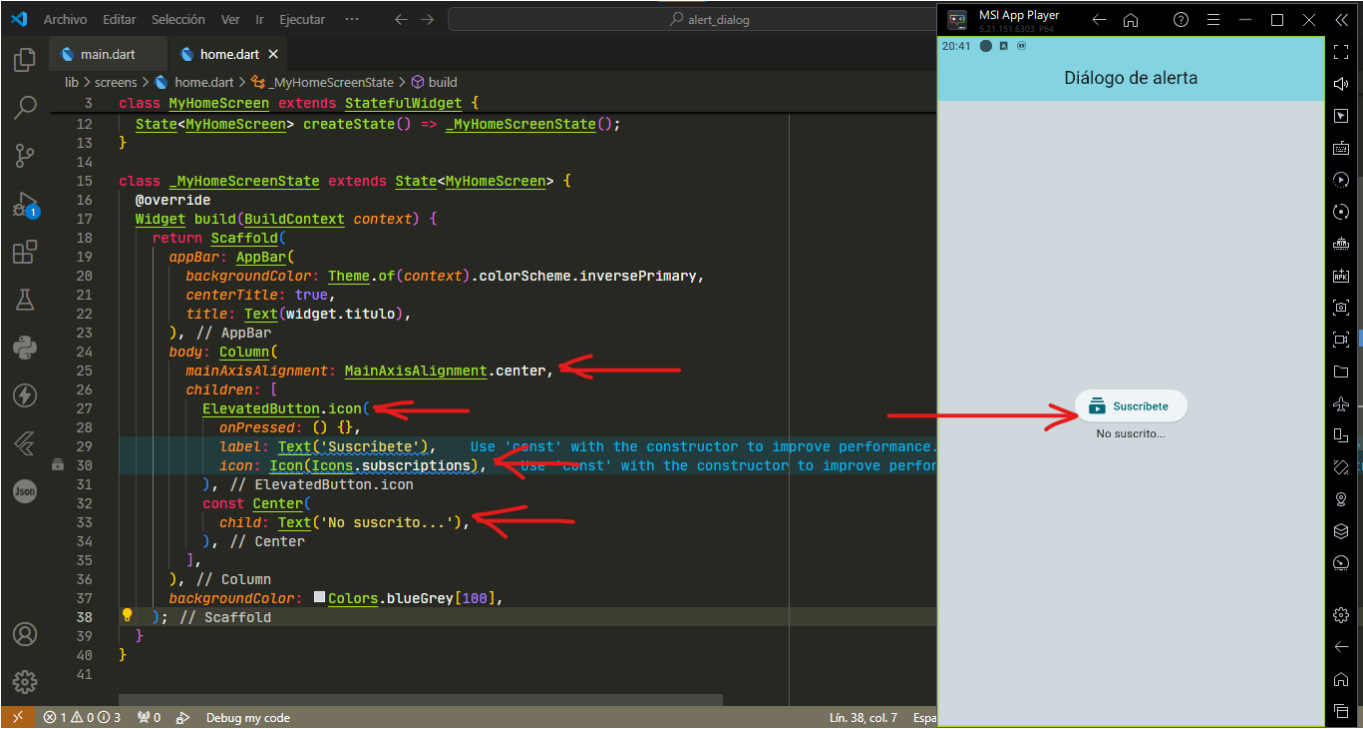

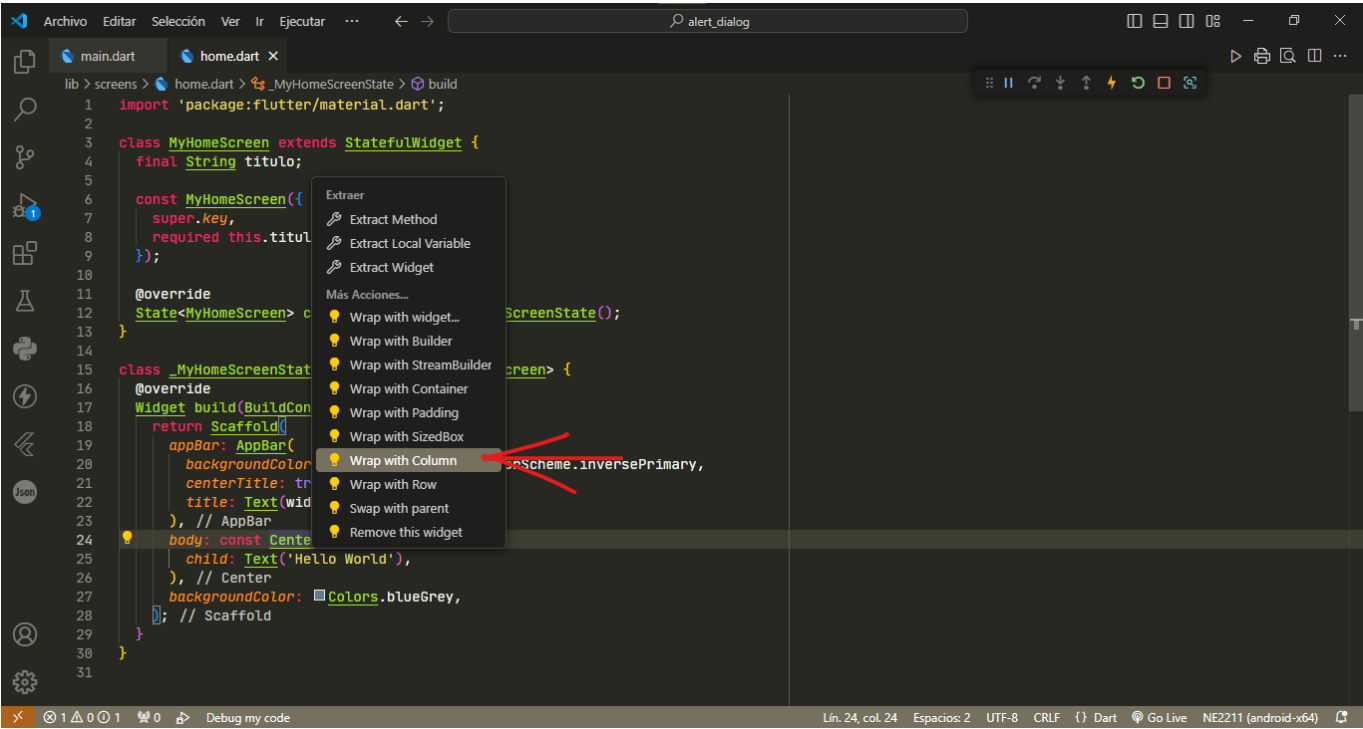

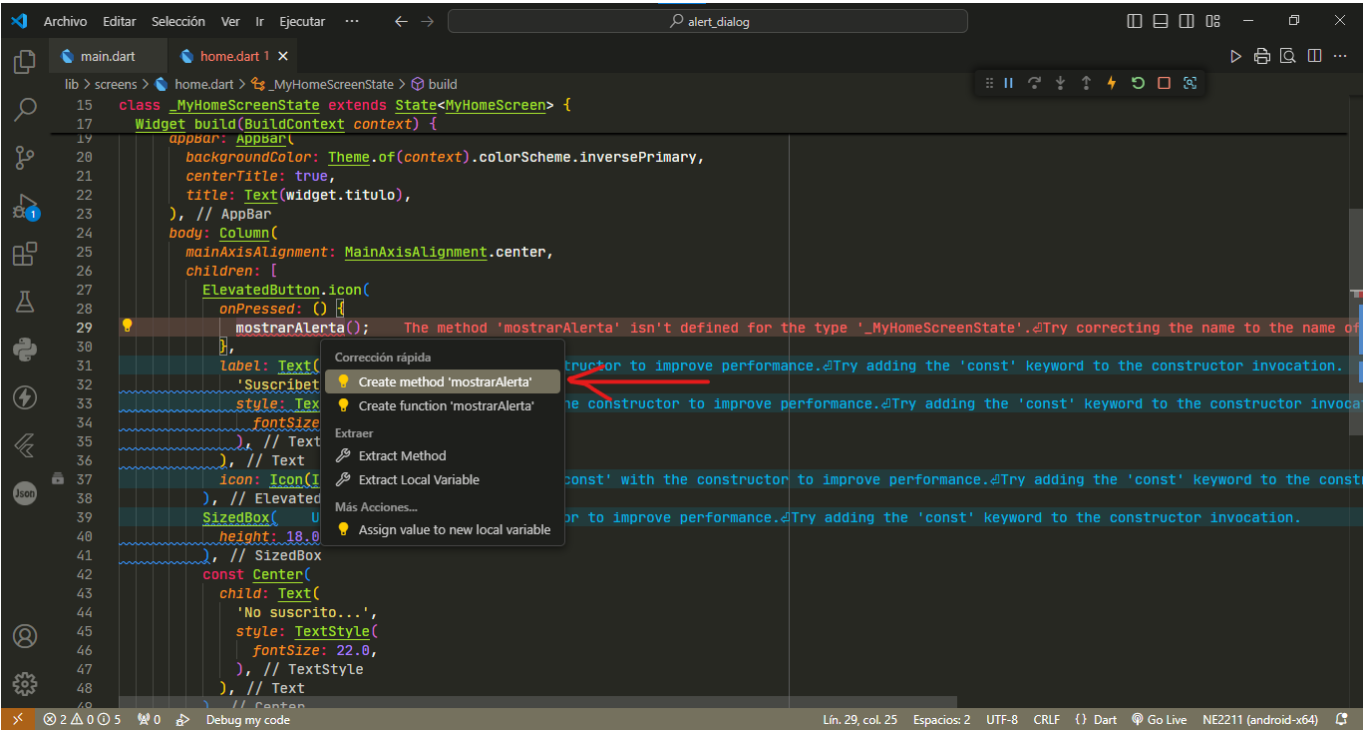

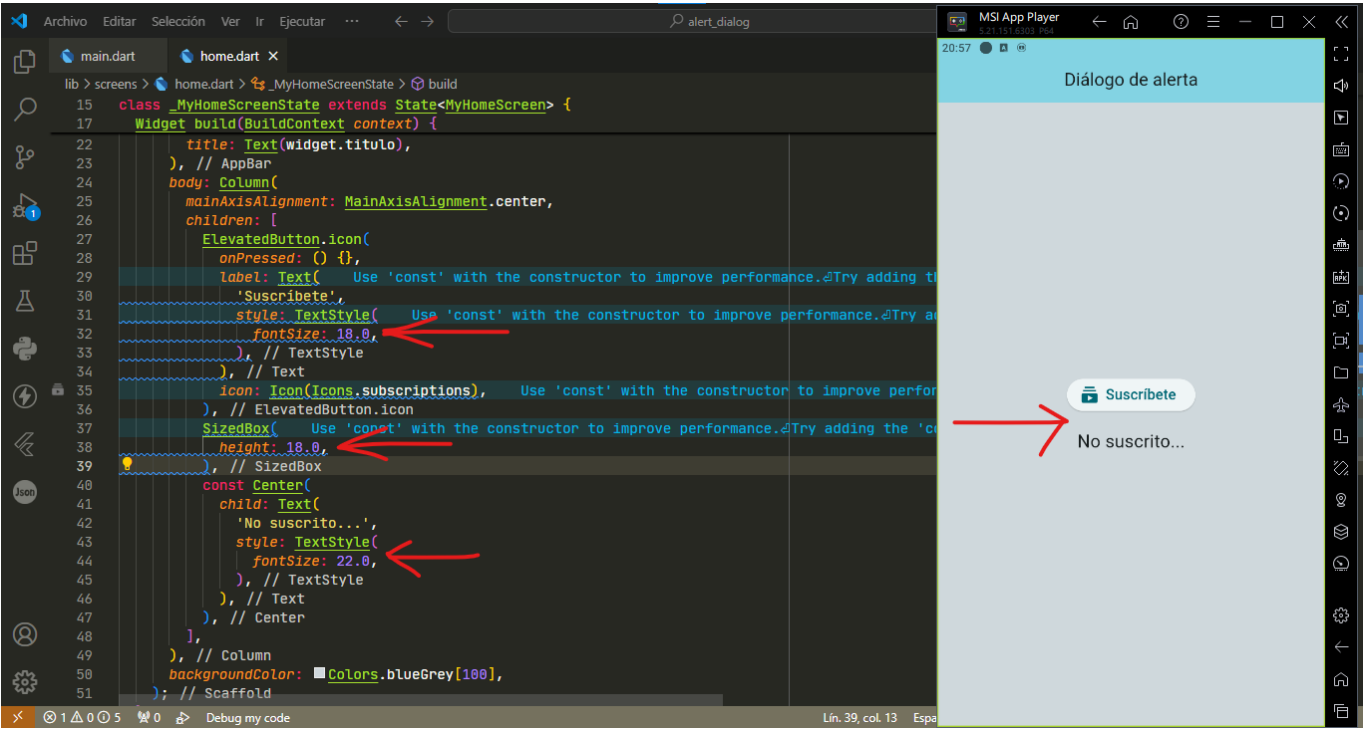

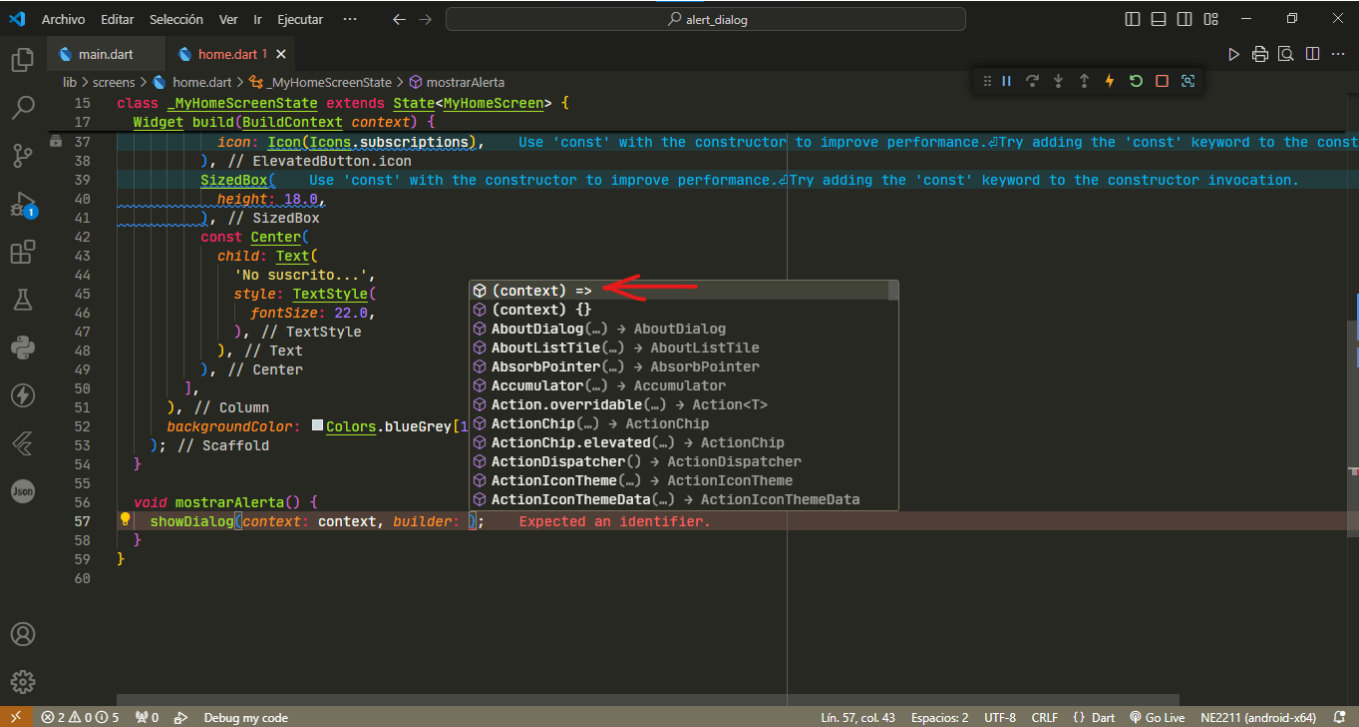

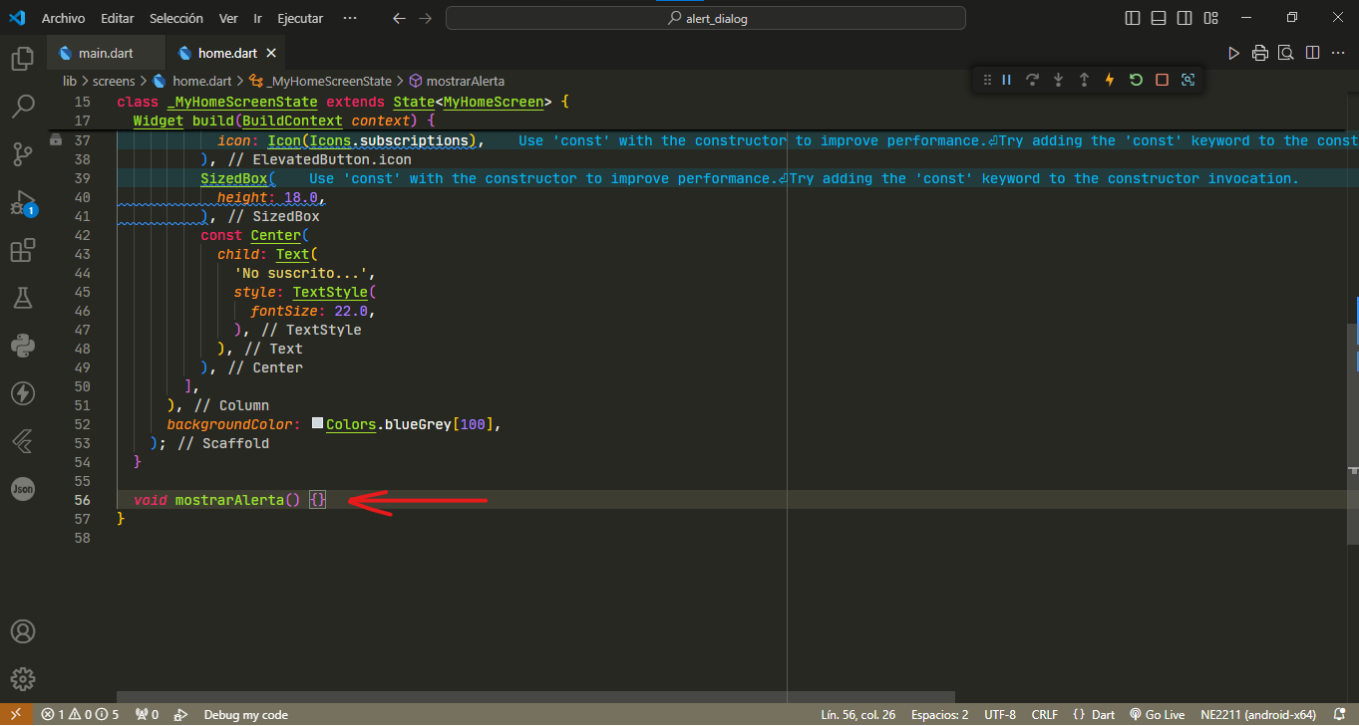

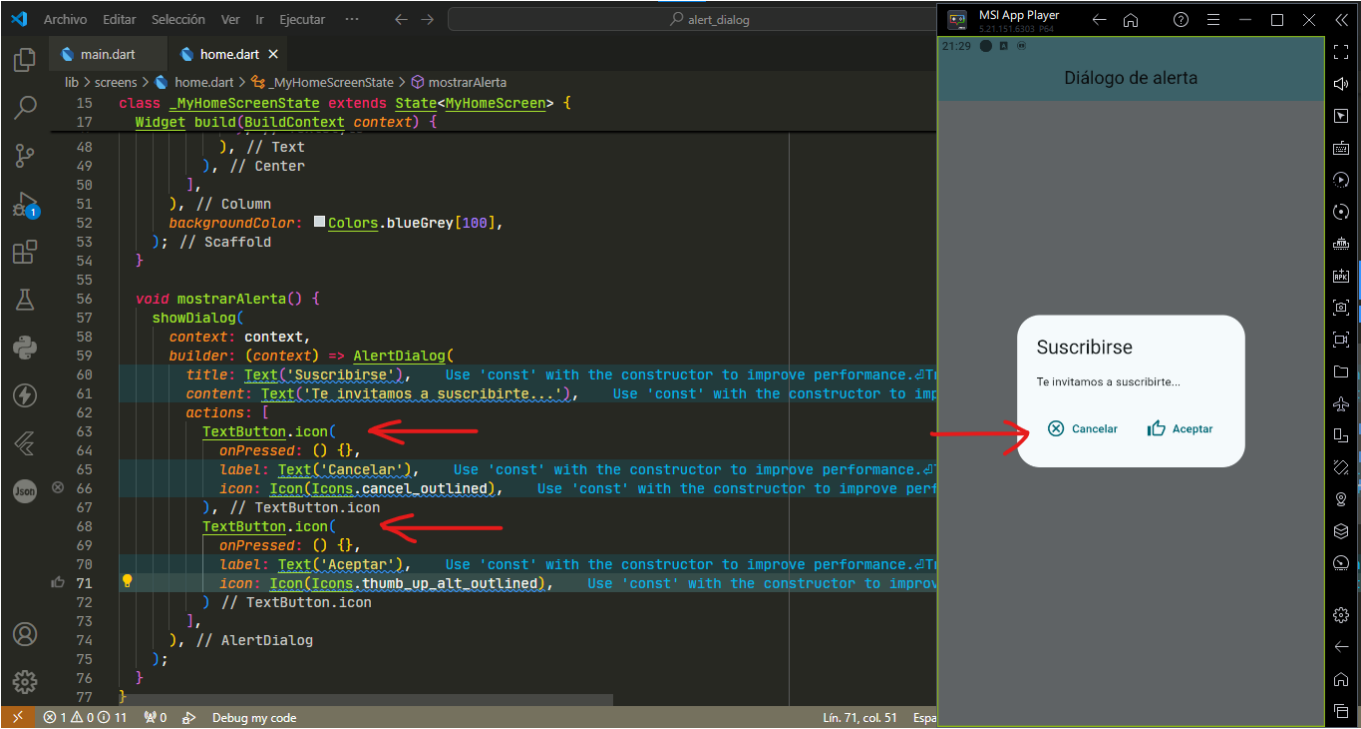

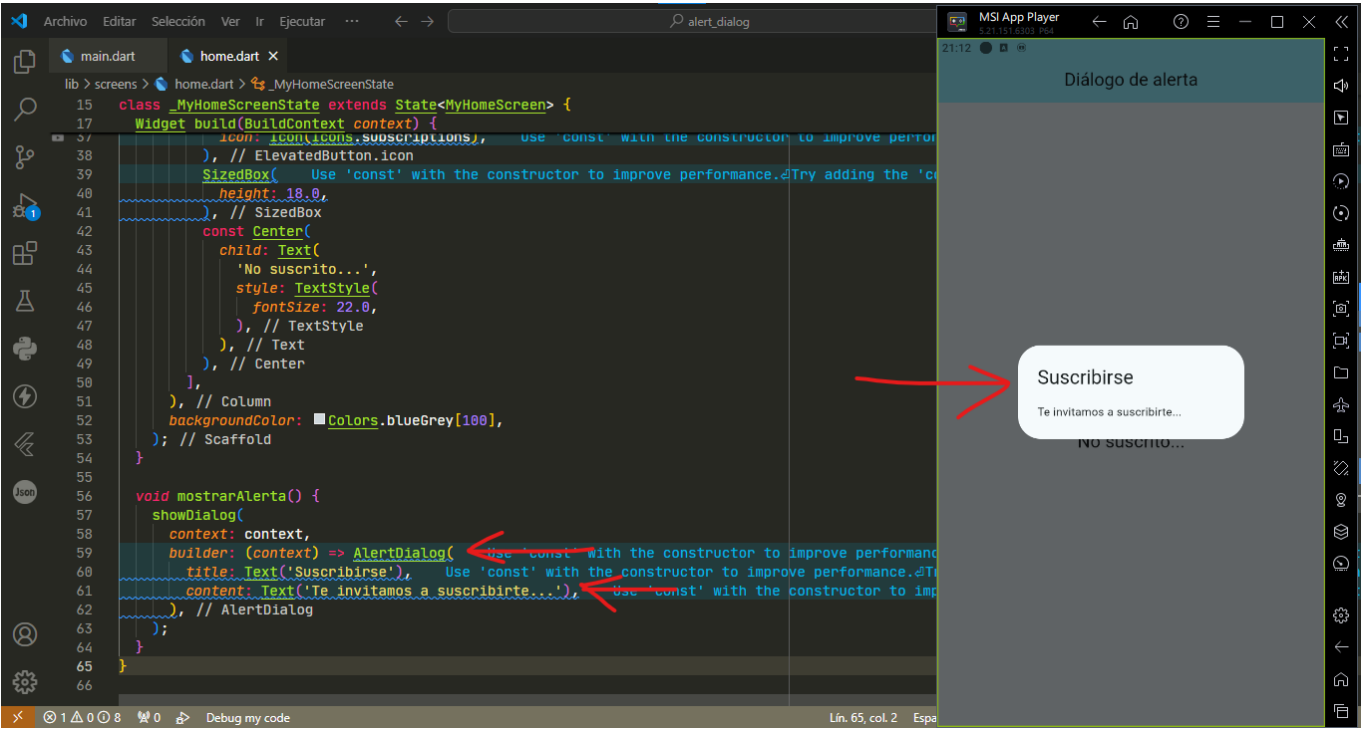

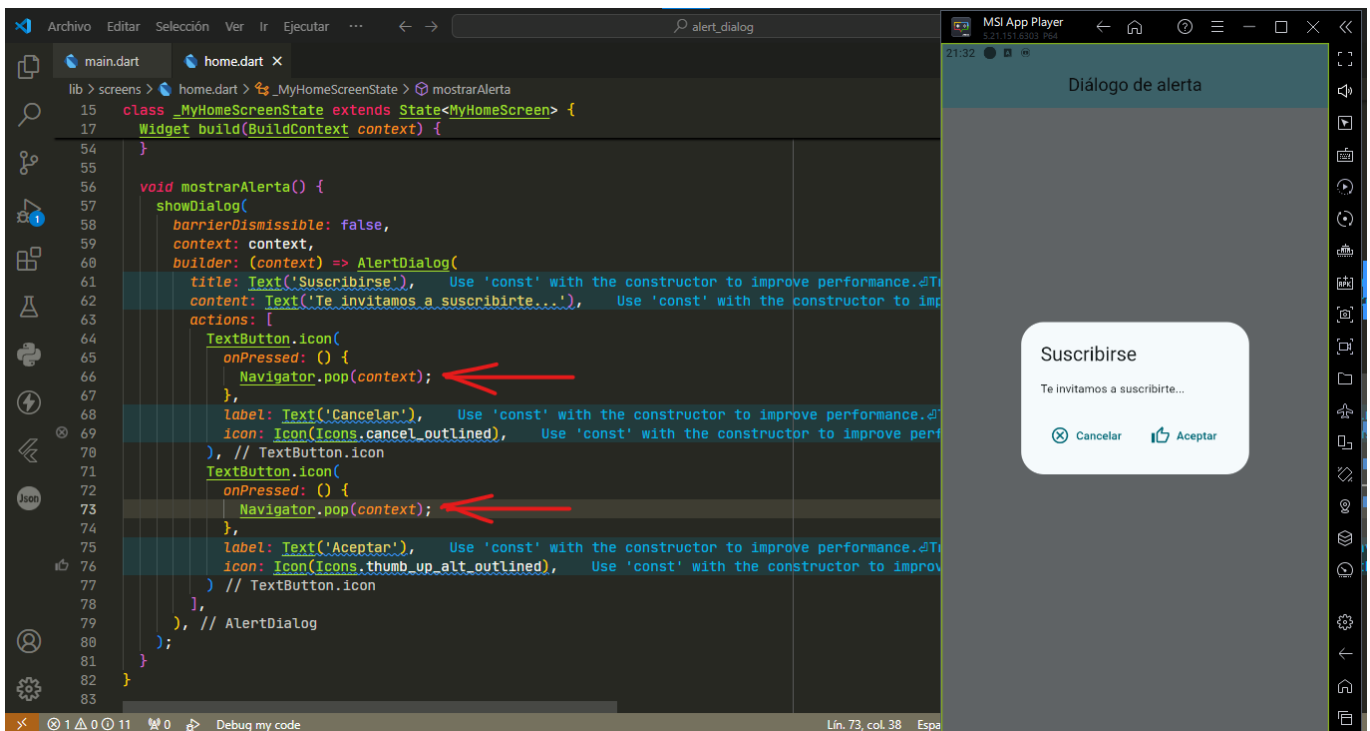

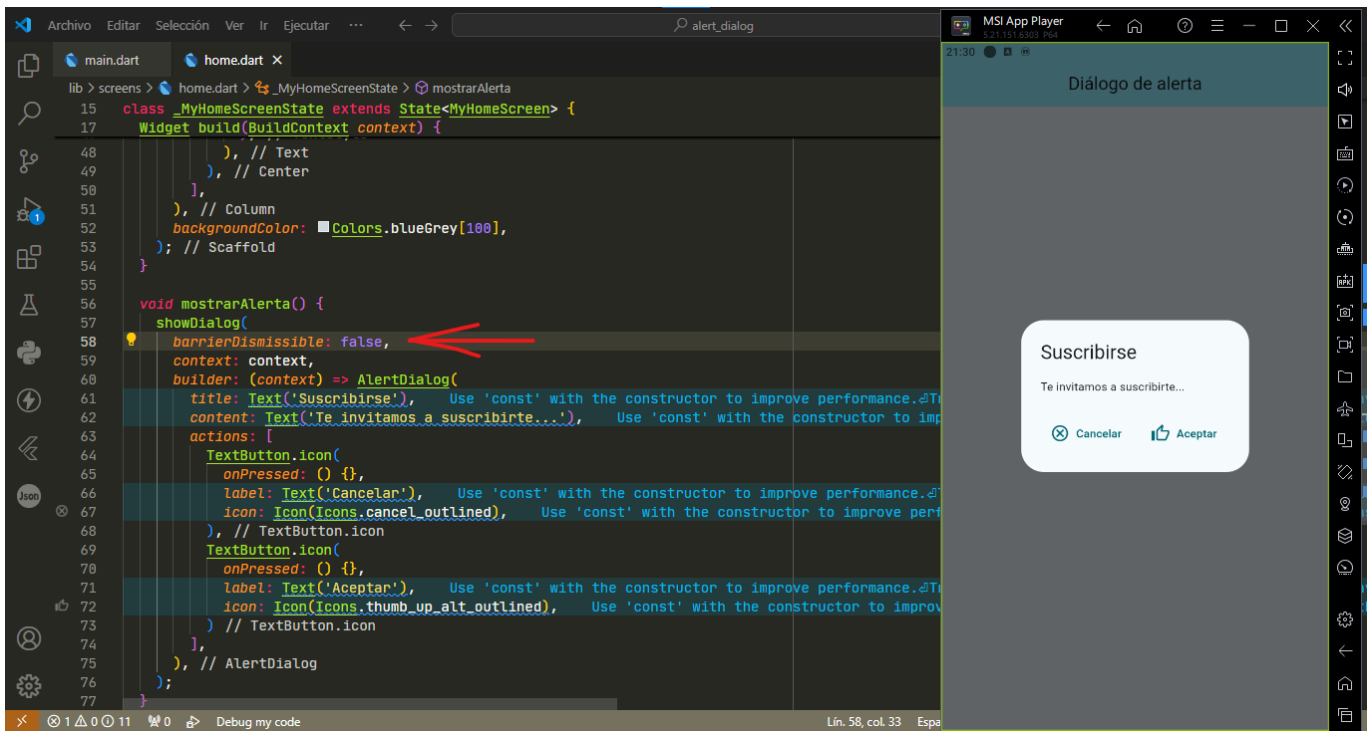

```
lib > screens > home.dart > _MyHomeScreenState
15 class _MyHomeScreenState extends State<MyHomeScreen> {
17   Widget build(BuildContext context) {
54   }
55
56   void mostrarAlerta() {
57     showDialog(
58       barrierDismissible: false,
59       context: context,
60       builder: (context) => AlertDialog(
61         title: const Text('Suscribirse'),
62         content: const Text('Te invitamos a suscribirte...'),
63         actions: [
64           TextButton.icon(
65             onPressed: () {
66               Navigator.pop(context);
67             },
68             label: const Text('Cancelar'),
69             icon: const Icon(Icons.cancel_outlined),
70           ), // TextButton.icon
71           TextButton.icon(
72             onPressed: () {
73               Navigator.pop(context);
74             },
75             label: const Text('Aceptar'),
76             icon: const Icon(Icons.thumb_up_alt_outlined),
77           ), // TextButton.icon
78         ],
79       ), // AlertDialog
80     );
81   }
82 }
83
```

```
lib > screens > home.dart > _MyHomeScreenState > build
15 class _MyHomeScreenState extends State<MyHomeScreen> {
17   Widget build(BuildContext context) {
25     mainAxisAlignment: MainAxisAlignment.center,
26     children: [
27       ElevatedButton.icon(
28         onPressed: () {
29           mostrarAlerta();
30         },
31         label: const Text(
32           'Suscribete',
33           style: TextStyle(
34             fontSize: 18.0,
35           ), // TextStyle
36         ), // Text
37         icon: const Icon(Icons.subscriptions),
38       ), // ElevatedButton.icon
39       const SizedBox(
40         height: 18.0,
41       ), // SizedBox
42       const Center(
43         child: Text(
44           'No suscrito...',
45           style: TextStyle(
46             fontSize: 22.0,
47           ), // TextStyle
48         ), // Text
49       ), // Center
50     ], // Column
51   ), // Scaffold
52   backgroundColor: Colors.blueGrey[100],
53 }; // Scaffold
54
```
